

Tigers tribute to the Lotus 6 - Tiger special classic designed space frame powder coated in a colour very similar to the original Lotus 6 or early Lotus sevens - alloy is shaped and fitted on body - floor pans fitted - this kit is also supplied with alloy bonnet - grp nose - cycle wings - rear wings and dash £2495 plus vat = painting is recommended on this car, Triumph front uprights and earlier spitfire/Herald are good donor cars live axle on rear of which many early classics could be used - we can modify your axle for your kit - standard HS6 builds from Tiger use Ford escort MK 1/2 - it is possible that most early 4 cylinder classic engines could be fitted - Triumph spitfire/Herald have been used by Tiger - if we have your special engine in our shop we can usually make it fit !!!

Tiger at present do not put together a full kit as there are so many variations of early recon engines that could be used and are available from many companies indeed there are many older classics running fine with rotting bodies that can be purchased cheaply and most probably the engine/ box/ axle could be used - few general prices here = Front wishbone set in powder coat grey /ball joints and rose joints = price £295----- Axle modification to your axle = price £120 ----- Steering shaft = price £85 ----- 4 trailing arms and 1 panard powder coated = price £75 ----- Wiring loom = price £110 all other prices please contact Laura in our parts dept 01945 466200
